Thyroid Cytology Structured Reporting Protocol
Clinical information
55752-0
LOINC
Patient demographic information provided
History of prior surgery / radiation
Thyroid Function Tests
T3
T4
TSH
Thyroid Antibodies
Nodules
Location and size
Radiologic / Sonographic appearance
Cystic
Solid
Mixed
Other
Describe
Calcification
Present
Absent
Pathology Accession number
57723-9
LOINC
Principal clinician caring for the patient
Any other clinical information received
22636-5
LOINC
Procedural Information
Date of FNA
FNA operator
Name
Contact details
Role i.e. radiologist/surgeon
Location of sampled nodule
20506-2
LOINC
Description of nodules
Size
Calcification
Number of passes
Aspirated to dryness
Yes
No
Residual mass
Yes
No
Lymph nodes
Sampled
Location
Size
Level
Not sampled
Aspirate appearance
Any difficulties with the aspiration
Sedation
Level
Type
Other relevant information
Specimen information
Specimen types / slides
22633-2
LOINC
Distribution of biopsy material
Flow cytometry
Immunohistochemistry
Cytogenetics
FISH
Molecular testing
Microbiology
Tissue bank
Other
Specify
Microscopic findings
Conclusion
11552-7
LOINC
Classification
Non-diagnostic (Category 1)
Benign (Category 2)
Colloid nodule/ follicular nodule/ multinodular goitre
237496006 | Thyroid colloid nodule |
SNOMED
419153005 | Nodular goitre |
SNOMED
Cyst
72325004 | Cyst of thyroid |
SNOMED
Diffuse hyperplasia (Graves disease)
353295004 | Graves' disease |
SNOMED
Lymphocytic thyroiditis (Hashimoto)
21983002 | Hashimoto thyroiditis |
SNOMED
Acute thyroiditis
190293001 | Acute thyroiditis |
SNOMED
Granulomatous thyroiditis (palpation, de Quervain)
428041004 | Subacute granulomatous thyroiditis |
SNOMED
Indeterminate OR Follicular lesion of undetermined significance (Category 3)
Suggestive of a follicular neoplasm (Category 4)
Suspicious of malignancy (Category 5)
Malignant (Category 6)
Papillary thyroid carcinoma
255029007 | Papillary thyroid carcinoma |
SNOMED
Medullary carcinoma
255032005 | Medullary thyroid carcinoma |
SNOMED
Poorly differentiated carcinoma
395530002 | High grade (poorly differentiated to undifferentiated) |
SNOMED
Anaplastic carcinoma
255031003 | Anaplastic thyroid carcinoma |
SNOMED
Lymphoma
278051002 | Malignant lymphoma of thyroid gland |
SNOMED
Metastatic tumours to the thyroid
315007008 | Metastasis from malignant tumour of thyroid |
SNOMED
Further specific diagnosis
If applicable
Summary of cytological findings
Thyroid
18497-8
LOINC
Lymph Node
31187-8
LOINC
Recommendation
If applicable.
Ancillary findings (if requested)
35265-8
LOINC
Immunochemistry
Antibodies
Positive antibodies
Negative antibodies
Equivocal antibodies
Interpretive comment
