

SPR*/ICCR ⁱ	Data element	Response			
	Fresh tissue received	No	Yes	<i>If yes, describe any additional tests/ frozen sections/biobanking performed</i>	
	Procedure	Text			<i>As stated by the clinician</i>
S2.02	Specimen labelled as	Text			
	Anatomical components	Adrenal	Kidney	Other, describe	
G2.01	Specimen dimensions	__x__x__mm			
S2.03	Specimen weight	__g			
S2.04	Specimen capsule	Intact	Not intact		
S2.05	Number of macroscopically visible tumour(s)	—			
	<i>For each tumour: (if >1 designate accordingly)</i>				
S2.06	Macroscopic appearance of lesion(s)				
S2.06	Size in greatest dimension	__mm			
S2.06	Location	Indeterminate	Cortex	Medulla	Other, specify
S2.06	Borders	Encapsulated	Infiltrative		
S2.06	Description	Text			
S2.06	Distance to nearest excision margin	__mm			
S2.07	Appearance of uninvolved adrenal gland				
S2.07	Cortex	Unremarkable	Atrophic (thin)	Hypertrophic (thick)	Not identified
S2.07	Cortical nodules	Absent	Present	Not assessable	
S2.07	If present, record size of largest nodule	__mm in maximum dimension		or <10mm	
S2.07	Medulla	Unremarkable	Atrophic (thin)	Hypertrophic (thick)	Not identified
S2.07	Medullary hyperplasia/nodule	Absent	Present	Not assessable	
G2.02	Accompanying structures				
G2.02	Lymph nodes	Absent	Present	<i>Record number per cassette.</i>	
G2.02	Other adjacent structures	Text			
G2.03	Other relevant macroscopic information	Text	<i>E.g. any additional orientation; specimen integrity (if disrupted); relationship of tumour to other structures included in "anatomical components"</i>		
	Block identification key	Text	<i>Describe nature and site of blocks</i>
